

SANJESH SHAKYA

Digital Marketing Executive

Lalitpur, Nepal

PROFESSIONAL EXPERIENCE

SEO & Digital Marketing Executive — *BJay Education & Visa Services* **2025/11 – 2026/4**

- Executed end-to-end SEO campaigns encompassing On-page, Off-page, and Technical SEO, substantially increasing organic traffic and search visibility for targeted high-intent keywords.
- Optimized critical website elements, including meta tags, heading structures, internal/external linking, and content architecture to maximize search engine crawlability.
- Conducted rigorous technical SEO audits and resolved core issues related to site speed, mobile usability, and indexing to drastically improve page load performance.
- Managed and optimized web content using WordPress CMS and Elementor Page Builder, enhancing overall user experience (UX) and increasing average session duration.
- Performed deep keyword research and competitor analysis to identify high-impact content opportunities, driving growth in organic impressions.
- Designed engaging banners, infographics, and social media graphics using Canva and Adobe Photoshop to support and elevate multi-channel digital campaigns.
- Collaborated closely with the cross-functional marketing team to align strategy, plan campaigns, and achieve collective growth milestones.
- Monitored, analyzed, and reported performance data using Google Analytics, Google Search Console, Semrush, and Ahrefs to drive continuous, data-informed optimizations.

Digital Marketing Executive — *COSMOTECH International Pvt. Ltd.* **2023/6 – 2024/5**

- Developed and executed digital marketing campaigns across multiple platforms to enhance brand visibility and drive website traffic.
- Analyzed website traffic and user engagement metrics using web analytics tools to refine marketing strategies for improved performance.
- Implemented advanced analytics tools to monitor user behavior, translating raw data into actionable insights for strategic planning.

SEO Analyst — *Yala Tech Hub* **2022/8 – 2023/2**

- Increased organic traffic by optimizing metadata, site architecture, internal linking structures, and overall On-page SEO variables.
- Conducted comprehensive technical SEO audits to identify and fix crawl errors, successfully boosting the Google PageSpeed Insights score from 55 to 89.
- Developed a targeted keyword strategy focusing on high-intent and long-tail search terms, leading to measurable growth in qualified lead generation.

Front End Developer — *Freelance* **Remote**

- Developed responsive, high-performance web applications using ReactJS and NextJS, ensuring seamless user experiences across devices.

- Collaborated directly with clients to gather technical requirements and translate business logic into functional, intuitive interface designs.
- Worked closely with UI/UX designers to accurately translate visual wireframes into interactive components, conducting cross-browser testing for platform consistency.
- Integrated RESTful APIs to enhance web application features, data management capabilities, and overall system functionality.

Stock Trader — Freelance

Remote

- Executed trades efficiently within strict compliance guidelines and robust risk management protocols to protect capital.
- Developed and maintained predictive trading models to enhance the accuracy of market movement forecasts.
- Actively monitored global economic indicators and geopolitical events to evaluate potential impacts on financial portfolios and maximize strategic returns.

Data Entry Specialist — Cloudfactory

2020/2- 2021/8

- Accurately processed and entered high volumes of data into company systems, ensuring strict data consistency, integrity, and reliability.
- Managed multiple data entry projects simultaneously while maintaining exceptional levels of organization, accuracy, and operational efficiency.
- Reviewed, verified, and audited data sets to identify discrepancies and implement immediate corrective actions.
- Collaborated with team members to streamline data processing workflows, significantly enhancing overall team productivity.

Web Developer Intern — Yala Tech Hub

2019/10 – 2020/3

- Assisted in front-end web development using HTML5, CSS3, JavaScript, and PHP for various responsive web applications.
- Implemented a responsive user interface for the company's main product page, directly contributing to an increase in user engagement.
- Partnered with senior developers to troubleshoot, debug, and optimize cross-platform code execution and page load speeds.
